

## HUISMAN SECURES CONTRACT FOR 100MT PEDESTAL MOUNTED CRANE DELIVERY TO EASTERN NAVIGATION

Schiedam, the Netherlands, 23 January 2025

**Huisman has signed a contract with Zhenjiang Jiangsu Shipyard Co. Ltd. for the delivery of a 100mt Pedestal Mounted Crane to Eastern Navigation, a leading provider of maritime support fleets in the Asian-Pacific offshore energy industry.**

This marks the fifth Pedestal Mounted Crane Huisman will supply for Eastern Navigation's fleet. It follows the proven performance of the existing 300mt and 100mt cranes over several years, as well as the addition of another 100mt crane currently under construction, scheduled for delivery in mid-2025.

Huisman's Pedestal Mounted Cranes are renowned for their compact tail swing, which maximises free deck space. To enhance reliability and reduce maintenance requirements, all main equipment – including winches, electrical cabinets, and hydraulic power units – is housed within the crane structure, providing protection from the harsh marine environment. The boom hoist extends from the top of the crane house to the boom tip, enabling precise control of the lower block radius.

**Huisman**  
Equipped for impact

Huisman's scope of work includes the full spectrum of engineering, production, installation, and testing, ensuring a turnkey delivery from its production facility in Xiamen, China.

**Tan Wei Ming, Head of New Projects at Eastern Navigation:** "Our longstanding partnership with Huisman highlights our dedication to providing reliable, high-specification equipment aboard our vessels, allowing us to effectively meet the evolving demands of the offshore marine industry."

**Timon Ligterink, Commercial Director APAC at Huisman:** "We are honoured by Eastern Navigation's continued confidence in our heavy lifting technology. With the sister vessel, featuring our first 100mt Pedestal Mounted Crane, successfully operating for over a decade, this new contract stands as a testament to the quality and reliability of our products. We look forward to partnering with Eastern Navigation for many more decades to come."

#### Key features of the Pedestal Mounted Crane

- Fully enclosed crane house for equipment protection
- Compact tail swing design
- Specialised fatigue-resistant construction for heavy-duty applications
- Upgraded SCADA control system for enhanced monitoring and operation
- Improved crane cabin ergonomics for operator comfort
